

FLEXIBLE CONNECTING (FBT)

FLEXIBLE CONNECTING FOR SYSTEMS WITH WEIGHT CONTROL

The flexible connecting can be inserted between conveying or dosing lines and units with weight control (bagging units, hoppers...)

This compensator is composed with stainless steel inserts to be quickly and hermetically installed with collars and U-shaped seals DN150 or DN200 in new lines or existing units. Standard height is 150mm.

Material	: Polyurethane
Thickness	: 1,0mm
Hardness	: 87* Shore A
Food contact	: FDA 21 CFR ; 177.2600, 177.1680, 175.105, EC 1935/2004, EC10/2011
Colour	: Transparent
Sort of certificate	: Migration testing report
Other compliances	: NSF61, BS 6290, KTW
Temperature	: -40°C to +90°C
Electrostatic properties	: 2*10 ¹¹ Ohm (Ω)
Pressure	: -0,2 bar without reinforcements / +0,3 bars (continuous)
Elongation failure	: 550%
