

FLEXIBLE CONNECTING (HOR)

FLEXIBLE CONNECTING FOR SYSTEMS WITH WEIGHT CONTROL

The flexible connecting can be inserted between conveying or dosing lines and units with weight control (bagging units, hoppers...)
This compensator DN150 or DN200 can be installed with collar “Serflex” type in new lines or existing units.

Material	: PU-UF3
Thickness	: 1,0mm
Hardness	: 87* Shore A
Food contact	: FDA 21 CFR ; 177.2600, 177.1680, 175.105, EC 1935/2004, EC10/2011
Colour	: Transparent
Sort of certificate	: Migration testing report
Other compliances	: NSF61, BS 6290, KTW
Temperature	: -40°C to +90°C
Electrostatic properties	: $2 \cdot 10^{11}$ Ohm (Ω)
Pressure	: -0,2 bar without reinforcements / +0,3 bars (continuous)
Elongation failure	: 550%
